

NORSE AMERICA

Genre: Drama Adventure

Logline: Two brothers search for the one who can control their seer stone so they can live their destiny to reunite the Norse tribes of a quarantined America.

Kerr and his little brother Terrel barely land on the quarantined continent with their seer talisman before they are separated. Kerr leads the Haldan murdering rebels on a merry chase through long deserted city streets. Village schoolteacher Schuyler takes Young Terrel, with the talisman to the Viking village.

Kerr is caught and beaten while Terrel makes a connection with Skylar in her village. Her decision to free Kerr ignites a feud with the Haldan. By the time the talisman chooses Skylar, Kerr has already fallen in love with her. The discovery of the cause of a continent wide plague distracts Kerr long enough for Skylar to be abducted by the Haldan.

The most unlikely Viking berserker leads a group of villagers, who are intent on wiping out the Haldan. While they spring the Haldan trap, Kerr's small group goes after Skylar. She is saved by the death of the Haldan leaders.

“NORSE AMERICA” is an Escape From New York meets 28 Days adventure into a supernatural future where Norse is the only DNA to survive a manmade plague.
